

## Internship Opportunity with Bamburi Cement Limited Health Program

In 2008 we are planning to extend these programs to a larger section of our surrounding communities, in collaboration with strategic partners.

As such we are inviting applications from students who are looking to gain practical experience in community based health management in both Kenya and Uganda on an internship program with the Bamburi group to be part of these extension programs.

Working with the Unit Health Coordinator, the successful candidate will be based in Mombasa supporting programs across East Africa.

### **Qualifications**

Students specializing in the following fields:

- PHD or Masters in Public Health or related fields
- PHD or Masters in Social, Political and Development Studies with a strong focus on Public Health

OR

Applicants who have completed studies in the above mentioned fields within the last 12 months i.e. 2007

### **Skills and competencies**

- Ability to work independently with minimum supervision
- Knowledge and understanding of Public and Community Health Issues
- Knowledge of the donors' procedures and understanding of Public Private Partnerships
- Good communication skills and a willingness to learn.

This is an excellent opportunity for students or recent graduates to be part of an extensive program and to gain exposure and work experience as part of their qualification and learning.
